

Energy Consulting Project Manager

Full-time position | Madison, WI or Chicago, IL

You can create a healthier future, a cleaner environment, and thriving, resilient economy.

Seventhwave seeks a results-oriented, experienced energy project manager motivated to create a clean energy economy.

As part of our team, you will help us deliver trusted expertise for bold energy leadership. Seventhwave advances powerful strategies for real energy impacts through engineering, education and research. Our solutions come from using different perspectives to yield uncommon results. We offer an innovative path to real progress for our partners. Because how we use energy matters.

Working at Seventhwave exposes you to experts leading our transition to a clean energy economy. You will work on interesting projects that illuminate new paths to deep energy savings in buildings. You will also enrich your professional network. And our work culture emphasizes curiosity, kindness and high standards.

Primary responsibilities

- Evaluate energy efficiency and renewable energy strategies in buildings, campuses, communities or regional settings and make energy savings recommendations to clients
- Manage energy efficiency projects, including energy design assistance and owner's representation, primarily for commercial buildings
- Generate ideas for and support new energy efficiency or renewable program development efforts
- Communicate results in written, graphical, and presentation formats

Desired skills and experience

- 3+ years of experience conducting consulting, engineering, or project management in a related field
- Excellent verbal and written communication skills, particularly in delivering research results and technical information through reports, presentations and webinars
- Project management or team leadership skills
- Knowledge of the fundamentals of energy use in buildings
- BS or MS in related technical field

Other beneficial skills

- Experience with building energy systems and modeling

- Experience with design and construction projects for commercial buildings
- Experience with demand response, energy storage, smart grid technologies, internet of things, automation and controls technologies, or indoor air quality

Join Seventhwave and be part of

- An independent non-profit seeking solutions to energy challenges
- A passionate, dedicated and talented staff
- National, regional and local initiatives to reduce our carbon footprint
- Award-winning programs that make a difference
